

3.1.1 The institution's Research facilities are frequently updated and there is well defined policy for promotion of research which is uploaded on the institutional website and implemented

Research facilities play a pivotal role in advancing knowledge and fostering innovation within any institution. Aliah University is dedicated to fostering a vibrant research culture. We understand the importance of staying at the forefront of our fields, and to achieve this, we provide our researchers with state-of-the-art facilities and a well-defined research promotion policy.

Specialized Labs and Modern Equipment: A variety of specialized laboratories dedicated to specific fields of study has been set up by the university. These labs have the latest equipment and technologies necessary for ground-breaking research tailored to the unique needs of each research area. Language labs also have been established for innovative research, training services and informational services in social science and language research.

Comprehensive Scholarships for Full-Time Scholars: Aliah University offers research opportunities for both full-time and part-time students. Full-Time Scholars invariably receive financial assistance in some capacity. Be it as Junior Research fellowship from central agencies like UGC, CSIR or DST INSPIRE or National Fellowship for Other Backward Classes (NFOBC) fellowships. Those not covered under the above, receive Swami Vivekananda Fellowship for four years, which is funded by the state of West Bengal.

Collaborative Spaces: We recognize the importance of collaboration in research. To this end, we provide dedicated spaces for researchers from different disciplines to come together, brainstorm ideas, and foster interdisciplinary research projects. All the campuses have a state of art library where the Research scholars have access to electronic databases and advanced resources online and offline.
