

## **Report on the Student Awareness Program on "Empowering Engineers of the Future: Overcoming Challenges and Building Motivation"**

Venue: Aliah University

Date: 13th November 2024

West Bengal Academy of Science and Technology (WAST) and Aliah University jointly organised a student awareness program entitled "**Empowering Engineers of the Future: Overcoming Challenges and Building Motivation**" on 13th November 2024 at Aliah University. Two eminent professors from the department of Electrical Engineering of Jadavpur University were the resource persons for the event. More than 100 participants including faculty members of Aliah University attended the event. The program started with a holy Quran recitation followed by the welcome speech by Dr. Nasim Ali Khan, co-convener of the event. Subsequent to this, Dr. Rimi Paul, Head (Off.) of Electrical Engineering department of Aliah University briefly spoke about the department and university. Thereafter, Prof. Debangshu Dey, Professor in Electrical Engineering department of Jadavpur University gave his speech on application of MEMS into smart phone apps. Followed by the first talk, Prof. Sivaji Chakravorti, Professor in Electrical Engineering department of Jadavpur University and President of WAST delivered his speech on soft skill development for engineering profession. Vibrant students interacted with the speakers very well. The program was concluded by the vote of thanks given by Dr. Biswapriya Chatterjee, convener of the event. A feedback link was shared amongst the participants for sharing their thoughts regarding the event.
