

# EMPOWERING THE FUTURE:

## RESEARCH, INNOVATION, AND CAREER OPPORTUNITIES IN ELECTRICAL ENGINEERING

**Date:**  
19.08.2026

**Venue:** Seminar room, 3rd Floor,  
New Town campus, Aliah University

**Schedule:**

### PROGRAM SCHEDULE

|                  |                                                                                     |                                                                                                                                                                                                                                                |                                                                                                                    |
|------------------|-------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------|
| 10:30 am         |    | <b>Inauguration</b>                                                                                                                                                                                                                            |                                                                                                                    |
| 11-12:30 pm      |    |  <b>Lecture 1</b><br><b>Speaker:</b> Dr. Abdul Latif,<br>Assistant Professor, Smart Systems and Energies (SSEs),<br>JUNIA Ecole d'Ingenieurs de Lille, France | <b>Title:</b><br>Smart Electrical Grid                                                                             |
| 12:30-1:45 pm    |   |  <b>Lecture 2</b><br><b>Speaker:</b> Dr. Mehebab Alam,<br>Sub-divisional Engineer (E)/ Manager (E), DVC                                                      | <b>Research Direction and Opportunities in Electrical Engineering Considering Transition of Electricity Market</b> |
| 01:45 - 02:30 pm |  | <b>Lunch break</b>                                                                                                                                                                                                                             |                                                                                                                    |
| 02:30 - 03:45 pm |  |  <b>Lecture 3</b><br><b>Speaker:</b> Mr. Abdus Sadeque,<br>Lead Techno-Functional Consultant, Capgemini                                                     | <b>Title:</b><br>From Classroom to Corporate:<br>Building a Job-Ready Mindset                                      |
| 03:45 - 04:00 pm |  | <b>Valedictory session</b>                                                                                                                                                                                                                     |                                                                                                                    |

|                                                                                       |                     |                                                                                                                                                                            |
|---------------------------------------------------------------------------------------|---------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|    | <b>CHIEF PATRON</b> | <b>Prof. Rafikul Islam,</b><br>Hon'ble Vice Chancellor, Aliah University                                                                                                   |
|    | <b>PATRON</b>       | <b>Prof. Md Abdul Khan</b><br>Registrar (Officiating), Aliah University<br><br><b>Prof. Sk. Moinul Haque</b><br>Dean, Faculty of Science & Technology,<br>Aliah University |
|    | <b>CHAIR PERSON</b> | <b>Dr. Sharmistha Mandal</b><br>Head, Electrical Engineering department,<br>Aliah University                                                                               |
|   | <b>CONVENER</b>     | <b>Dr. Nasim Ali Khan</b><br>Assistant Professor,<br>Electrical Engineering department,<br>Aliah University                                                                |
|  | <b>CO-CONVENER</b>  | <b>Dr. Biswapriya Chatterjee</b><br>Assistant Professor,<br>Electrical Engineering department,<br>Aliah University                                                         |

### ORGANIZING COMMITTEE

- Dr. Md Aftab Alam
- Dr. Rumpa Saha
- Dr. Rimi Paul
- Mr. Pallav Dutta
- Mr. Wasim Ikbal Tarafder
- Miss. Limuja Rashid
- Mr. Nasimuddin Mondal
