

FINANCIAL MANAGEMENT

KEY FEATURES OF THE BOOK

Designed specifically for students of MAKAUT, Calcutta University, St. Xavier's University and other premier institutions across West Bengal, this book provides a comprehensive and application-oriented approach to mastering Financial Management. Combining conceptual depth with real-world insights, it serves as an indispensable academic resource for aspiring finance professionals.

- **Syllabus-Aligned and Contextual**

Designed as per NEP 2020 and aligned with B.Com, BBA and MBA syllabi of major West Bengal universities, the book blends conceptual clarity with exam-focused structure for academic excellence and practical insight.

- **Comprehensive and Structured Content**

This book provides exhaustive coverage of all core financial decisions—investment, financing, dividend, and working capital management. It also features a dedicated chapter on financial risk management, introducing tools such as options, futures, and swaps, along with financial statement analysis and interpretation, making it a complete, practice-oriented resource for today's finance learners.

- **Real-World Relevance**

A dedicated chapter of real-life case studies bridges theory and practice, illustrating how core financial concepts apply to actual business decisions and equipping students with practical insight and deeper understanding.

- **Step-by-Step Numerical Approach**

Each financial concept is accompanied by carefully explained numerical problems, complete with formulas, working notes, comments and interpretations—empowering students with the tools they need to solve problems with confidence.

- **Student-Friendly Language**

Written in clear, accessible language, each chapter begins with a relatable story or anecdote, making core concepts come alive and enhancing understanding from the very first page.

- **Updated with Latest Developments**

Keeping pace with the evolving financial landscape, the book incorporates current trends, financial tools and key regulatory updates, including the provisions of the Companies Act, 2013, ensuring students stay informed and industry-ready.

- **Self-Assessment and Practice Tools**

Each chapter includes MCQs, short and analytical questions with suggested answers, along with solved numerical problems—designed to reinforce concepts, sharpen problem-solving skills, and support effective exam preparation.

ABOUT THE AUTHOR

Dr. Gholam Syedain Khan brings over 14 years of distinguished experience in higher education, having served as a faculty member at prestigious colleges under the University of Calcutta. A proud alumnus of St. Xavier's College (Autonomous), Kolkata, Dr. Khan has contributed significantly to academia as an Assistant Professor of Finance at his alma mater before taking on his current role at the Department of Management & Business Administration, Aliah University, Kolkata. With expertise in financial econometrics, time series analysis and financial modeling, Dr. Khan's academic journey includes serving as a Research Fellow at the Centre of Excellence in Financial Markets (CUCSE-CFM), a joint initiative of the University of Calcutta and the Calcutta Stock Exchange, where he was in charge of editing its quarterly financial markets newsletter. He has authored numerous articles in leading newspapers and published research papers in peer-reviewed and Scopus-indexed journals. Additionally, he has co-edited two books with national-level publishers. He also serves as a reviewer for Springer and other Scopus-indexed journals. He holds a Patent registered with the Indian Patent Office, a testament to his commitment to translating academic insight into practical impact. Dr. Khan is an avid researcher in various fields of finance and has presented his research at various national and international conferences and seminars in India and abroad.
