Certificate of Solid Waste Management

To Whom It May Concern

This is to state that we have been engaged as an energy & environmental auditor by the Aliah University, Kolkata for both of their campus at Newtown Rajarhat and Park Circus. Based on our audits, this is to certify that the Institute has taken up measures for the Solid Waste Management of the campus during operational phases, like segregation at sources, dispatching through appropriate authorities etc. By implementing such inventive approaches and actively involving the community, the institution has successfully decreased trash production, improved recycling initiatives, and advanced sustainability practices on campus. Their dedication to environmental stewardship serves as an admirable model for educational institutions across the country, demonstrating their commitment to a more sustainable future.
