

**Departmental Freshers to 1<sup>st</sup> Year students of (2021-2025 Batch) and Farewell to Final Year Students (2018-2022 Batch) of the Department of Civil Engineering of Aliah University held on 31.03.2022 in the Department**

As on one side '**Belasheshe**' marks the culmination of something, similarly on the other side something very beautiful and welcoming can perfectly be antithetical to '**Aahaban**'. There goes an old saying that after every darkness comes a fine dawn marking a smooth transition and thereby a new beginning with lots of hope.

Civil Engineers do love to play with structures and machines but are skilled at the use of metaphors and connotations as well. The day was 31.03.2022 when our beloved juniors from second year and third year organized the auspicious event of Farewell and Freshers.

It was hard on our part to hold back the rolling tears as each droplet comprised of thousands of memories spent with our beloved juniors, friends and our respected faculty members, but seeing the Rookies we tripped down the lane where we visited 4 years ago.

The journey in this train has ended, the station has arrived for us. But for the new boarders indeed, it will be a long journey with thick and thin in the path. The faculty members will drive you safe to your respective station.

Perhaps this year with trodden voices we echoed "**Asche bochor abar hobe**" but with a smiling face we accepted "**Life goes on**".

**Sk Sanwayee Aktari on behalf of 4th year Students,  
Roll No-CEN18014  
Department of Civil Engineering, Aliah University**
