Welcome to CCOCS – 2019

Department of Chemistry is going to organize a one day National Conference on **Current Challenges & Opportunities in Chemical Sciences (CCOCS - 2019)** at our University on **8th August, 2019**. Senior experts Academicians and Researchers from various premier Research Institutes and Indian Universities have agreed to deliver lectures on topics of Current interest. We cordially invite you and your colleagues to attend the National Conference. Recent development in chemistry in the fields of targeted organic synthesis, methodology development, bioinorganic chemistry, nano-sciences, theoretical physical chemistry, spectroscopy, and access of advanced functional materials & application in solar cells will be covered here. Moreover medicinal application of organic molecules in pharmaceutical industries will be discussed. The aim of this conference is to highlight the way for deciphering complex structures on one hand to molecular-level understanding of various chemical and biological processes on the other. Thus *CCOCS-2019* is intended to be a forum for discussion on recent popular and relevant topics in chemical sciences. The scientific sessions of the conference will include invited lectures by eminent scientists, as well as poster presentations by young budding scientists from different fields of chemical sciences. The conference will provide a platform for the young researchers to interact with experts not only from their own field but from other allied fields too.

Scientific Scope & Opportunities:
